NOTE.—The great difference in value of Exports for 1873, as compared with 1871 and 1872, arises from the average value of coffee during 1873 in the local market previous to shipment being taken at £4. 10s. per cwt. for plantation and £4 per cwt. for native, instead of £2.14s. and £2 as heretofore.

The money figures from 1874 to 1885 have been converted from rupees to pounds sterling, at 1s. 10½d. to the rupee; for 1886 and 1887, at 1s. 7d. to the rupee; for 1888, at 1s. 4½d. to the rupee; for 1889 it is shown in rupees; prior to 1874 at 2s. to the rupee.

CLASSIFICATION OF REVENUE.

Customs.

These duties are collected under and agreeably to the directions of the Ordinances 17 of 1869, 14 of 1871, 39 of 1884, and 8 of 1885 (by which all former laws relating to Customs are repealed and consolidated); and amended Ordinance 22 of 1873 and Proclamation of November 10, 1877; under Ordinance 22 of 1877, by

which a royalty of 25c. is levied on every cwt. of plumbago exported beyond seas; and under Ordinance 11 of 1869, and Proclamation dated January 7, 1882, by which a royalty of Rs. 100 is levied on each Elephant shipped from this Island to any place beyond the seas. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Government Notices dated October 20, 1876, and July 6, 1877, under authority of the 13th clause of the Ordinance 17 of 1869. Export duties are collected under Ordinance 9 of 1882.

Port and Harbour Dues.

Port Dues are levied at all ports, except Colombo, under the Ordinances 17 of 1869 and 14 of 1871. The rates are 8c. per ton inwards and 8c. per ton outwards on loaded vessels. At Colombo, Harbour Dues are levied under Ordinance 6 of 1875 section 8, and Proclamations of November 7, 1882, May 6, 1885, March 27, 1887, and November 18, 1887, on ships entering the port, on ships discharging or loading cargo, and on Imports and Exports. Under this head are also brought to account receipts for the hire of Government boats and moorings, and half pilotage fees recovered under the Ordinance 6 of 1865. For Colombo Harbour a special tariff was published under Proclamations dated June 12, 1884, and March 20, 1886.

Land Sales.

Under this head are included the receipts derived from the sale of Crown lands and cinnamon gardens, under the rules laid down in the Minutes of Governor of January 14, 1857, and May 14, 1875, and the half-improved value of land under the provisions of the Ordinance 12 of 1840; at Rs. 2·50 an acre under Minute of August 8, 1884, also the proceeds of sale of paddy lands in the irrigation districts, under the Minutes of February 27, 1857, and May 21, 1868, and grants of land under the Minute of August 8, 1844.

Land Revenue.

Rent or Tax on Paddy.—The receipts classed under this head are derived from the rent or tax—usually one-tenth or one-fourteenth—of the produce of all lands cultivated with rice. In the Western and Southern Provinces the share of the produce of rice lands payable as rent or tax is, however, in many cases, one-half or one-fourth, and sometimes one-third, one-fifth, one-eighth, and one-twentieth; the differences in the rates being due to the different circumstances under which the particular lands were granted by successive Governments. Under the Dutch, a large area of rice land was held in return for personal services under the title of "accommodessans"—a tenure which was commuted by the Proclamations of September 3, 1801, and April 22, 1803, for a tax of one-fifth of the produce. In the Provinces which formed the old Kandyan kingdom the tax is universally one-tenth or one-fourteenth, and is levied under the authority of the Proclamation of November 21, 1818. The tax in the Sinhalese maritime provinces was, until the passing of the Ordinance No. 11 of 1878, farmed under the provisions of the Ordinance No. 14 of 1840 to renters. In the Northern and Eastern Provinces, under voluntary agreement with the cultivators, a money payment replaced the tythe to some extent. Since the enactment of Ordinance 11 of 1878, the tax has been commuted for a money payment throughout the Western, Southern, and Eastern Provinces. In the Northern Province the farming of the tax and the voluntary commutation continue side by side. In the Kandyan districts, consisting of the Central Province, part of the Western Province (now Sabaragamuwa), the Kurunégala district of the North-Western Province, the North-Central Province, and Province of Uva, the tax was in the early times of the British occupation collected in kind: this system was replaced between the years 1827 and 1832 by a voluntary commutation for a money payment, which, however, was not renewed in the North-Western Province after 1832, or in the North-Central Province after its separation from the Northern Province. In the two last-named districts the tax is now farmed. The greater part of the Central Province, the Kandyan districts of the Western Province (now Sabaragamuwa), and part of the Province of Uva have been recently placed under the provisions of the Ordinance No. 11 of 1878. Part of the Central Province is voluntarily commuted, and in part of the Province of Uva the tax is now farmed.

Rent or Tax on Fine Grain.—Recognised by the Proclamations of September 3, 1801, and April 22, 1803 (which impose generally a tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of paddy), and recognised by the Ordinances 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The tax payable under clause 13 of Ordinance 11 of 1878. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head. In the Northern Province the rate of tax is one-fifth for jungle cultivation, and one-tenth for all the others. In the Kandyan territories, tax is levied on one species only of fine grain namely El Wi, but the other varieties are exempted from taxation, under the Proclamation of November 21, 1818.

Rent of Gardens.—This revenue is derived from the produce of Government gardens, either rented or collected in aumani (that is in kind). In the Central Province the rents derived from small Crown lands and on reserved Crown lands on sides of public roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, improperly termed "Tythes Redeemed."—A measure adopted in 1813 by Government, under the conviction that cultivators of Crown paddy lands would cultivate them more carefully and with greater advantage to the revenue if subjected to payment of one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the occupier paying ten years' value of the difference between one-tenth and the share hitherto payable, in four instalments as per Colonial Secretary's letter No. 709 of July 9, 1880. The permission to redeem the rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.—The receipts under this head are collected from the rental of Government lands, leased at will, and a fixed rate per acre on Government lands encroached upon by private parties.

Royalty on Cabook Stones, &c.—A payment of Rs. 3·75 is levied on every 1,000 cabook stones cut from the Government pits in the districts of Colombo and Negombo; of 50c. per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and 6c. on every cart-load of white sand removed from the Maradána cinnamon gardens.

Plumbago Licenses.—The lessee pays for a lease of one acre for the term of one year the sum of Rs. 10 in advance, and further, one-tenth part of all plumbago dug on the premises demised during the continuance of the lease, or a sum equal in value to such proportionate amount. Such further sum to be paid on or before the day of expiry of the lease. This amount is collected by the headmen.

Rents, exclusive of Lands.

This head embraces the amount for which the Government farms out the privilege of collecting the tolls leviable at the different roads, bridges, ferries, and canals, and the Lock at St. Sebastian, under the Ordinances 14 of 1867 and 12 of 1887. It also includes the rental paid by public officers for the occupancy of official residences, and also rent of buildings used as markets, coal-sheds, ice stores, &c.

Licenses.

Arrack, Rum, and Toddy.—The exclusive privilege of retailing spirits distilled from the palm tree, and arrack, rum, and toddy generally farmed in the several Provinces,—regulated by the Ordinances 10 of 1844 and 5 of 1881.

Duty on Arrack and Rum Stills.—Under this head are brought to account sums received for licenses issued to distillers of, and wholesale dealers in, arrack and rum, under the Ordinances 10 of 1844 and 5 of 1881. The license is granted by the Government Agents on the payment of the sum of Rs. 100, and is in force from the date of such grant until the 31st day of December next thereafter.

*Licenses to retail Beer or Porter and Intoxicating Liquors.**—These licenses are issued for the retail of beer or porter and intoxicating liquors, with the exception of arrack and rum, under the Ordinance 23 of 1877. The license is granted by the Government Agents on the payment of the sum of Rs. 10 to sell beer or porter only, Rs. 30 to sell intoxicating liquor generally (not to be consumed on the premises), Rs. 100 to sell intoxicating liquor generally (to be consumed on the premises), and Rs. 250 to keep an hotel, and is in force from the date of such grant until the end of the year.

Chanks.—Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of revenue, which is peculiar to the Northern Province, is protected by the Ordinance 4 of 1842.

Chank Fishery.—Under this head are brought to account sums received for permission granted for the employment of boats and divers in the chank fishery. The Ordinance 5 of 1842 provides that no fishery shall take place but by permission of Government, and the Government has made rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following taxes, &c.:—

* Rs. 50 for a license to possess opium; Rs. 200 and Rs. 250 for licenses for selling opium and bhang by retail and wholesale, respectively, in certain towns proclaimed under the Ordinance 4 of 1878; Rs. 2·50 for a license for the storage of Petroleum, under Ordinance 3 of 1878.

Royalty on Elephants removed from the Island, under Ordinance 13 of 1869 and Proclamation of June 27, 1882.—On each Elephant, Rs. 100.

Stamps.

Amount of stamps for certificates of admission of persons to act as Advocates and Proctors, levied under Ordinance 12 of 1848.†

Proceeds of stamps in judicial process and for general purposes in the Kachchéries, District Courts, Courts of Requests, and Police Courts, and by licensed vendors throughout the Island, under the provisions of the Ordinances 23 of 1871, 8 of 1880, and 43 of 1884.

Composition for stamp duty on bank notes in circulation.—Recognised by Ordinances 2 of 1861 and 3 of 1881.

Stamp duties levied under the Land Registration Ordinances 8 of 1863, 3 of 1865, and 13 of 1881, and fees for registering grants of Crown lands are also brought to credit under this head, as well as certain other stamp duties enumerated in page 33.

Proceeds of postage stamps sold are also accounted for under this head.

Taxes.‡

Under this head is brought to account an assessment tax, generally 5 per cent. on the annual value of all landed property within towns, forts, and gravets. It is levied under the provisions of the Ordinances 16 of 1865, 19 of 1871, 3 of 1875, and 7 of 1880.—See pages 43 and 44.

Postage.

Postage on letters, &c., regulated by the Ordinances 2 of 1878 and 40 of 1884.

Proceeds of postage stamps sold are accounted under the head stamps, under the Ordinances 27 of 1865, 10 of 1869, and 13 of 1871.

Fines and Forfeitures.§

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also occasionally sums realised by the seizure of crops grown on Crown lands without permission, and confiscated timber removed without license.

---

* Under the provisions of the Ordinances 17 of 1865 and 7 of 1876, the collections within Municipal Towns and in towns in which Local Boards of Health and Improvement have been established have been transferred to the Municipalities and Local Boards.

1. **The proceeds of all salt sold in the manufacturing districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances 3 of 1836, 1 of 1838, 26 of 1852, and 2 of 1864. By Ordinance 14 of 1857, the importation of salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance 17 of 1840 makes further provision for the protection of this source of revenue. THE REVENUE OF 1888 AND 1889.

Cause of Increase or Decrease.
Less arrears to collect.
A falling off in the importation of grain caused the decrease.
Larger exportation of plumbago.
Increase in tonnage of vessels.
Decrease due to less land put up for sale, and to the restrictions in the sale of Crown lands consequent on the conservation of Government forests.
Better crops, chiefly in the North-Western Province.
A falling off in the number of redemptions.
Greater activity in the plumbago trade.
Decrease owing to instalments due not having been paid within the year.
The sale of arrack rents realised better prices than in the preceding year.
Depression in the chank trade.
The real cause of the increase cannot be ascertained, but it may be fairly attributed to a revival of trade and to the expansion of the planting enterprise.
The same causes as above indicated have apparently resulted in an increased collection under this head.
The earnings of previous years, which were locked up in the late Oriental Bank Corporation, have been received in 1888 and credited to revenue, whereas the receipts for 1889 included only the normal profits of the year.
These are fluctuating items of receipt.

Cause of Increase or Decrease.

The Government steamer ceased to be employed in 1889 ; hence the decrease.

Increased sale of salt.
A larger quantity of arrack was sold in 1888 owing to the Pearl Fishery.

Decrease due to restriction in the sale of lands, and to less land put up for sale.

These are fluctuating items.

The fishery of 1889 was not so productive as that of 1888, owing to the abrupt closing of operations in consequence of cholera.

Decrease due to less lands brought up for sale.

Increased earnings during 1889 owing to the expansion of the tea enterprise in particular, and to revival of trade in general.

Increase due to payment of Assistant Agent, Mannar, while engaged on special duty. Increase due to additions to staff.
Increase due to additions to the staff at Puttalam. The allowance granted to the Acting Agent having ceased to be drawn on his confirmation to office as Government Agent. Increase is only apparent, and due to the severance of the district from the Western Province.

Increase due to payment of salary to a substitute, to the District Judge at Tangalla, and to a payment to meet a surcharge of the preceding year. Decrease due to the office of Additional Police Magistrate, Kurunegala, having been abolished.
This is a new Province, and the increase is, in a great measure, apparent.
Decrease is only apparent, a portion of the staff of this Department having been transferred to the newly-created Province.
New Province created in 1889, and the increase is counterbalanced by a decrease in the Western Province.

Excess credits. Under-estimated.	Inability to spend the sums voted within the year has apparently resulted in a large unexpended balance, of which the sum of Rs. 219,537 has been brought forward for expenditure in 1890.
	The vote for Colombo defences has not been fully spent, hence a large saving.

The results are most encouraging, and it is hoped they will in time encourage imitation. Improved ploughs have been sold and lent, and it is believed that the new system may gradually grow in favour. Eighty acres of paddy were cultivated for the spring crop of 1890 to test the remunerativeness of paddy on a fairly large scale.

Five elas and two tanks in Udukinda were repaired. Work of Taldena-ela, in Wiyaluwa, was completed. Repairs to the existing elas of Yatikinda were effected. Hambagamuwa tank work is in hand. Repairs to the existing elas and tanks of Bintenna were effected. Two tanks in Dambagalla were completed.

Slight advance in this direction made during the year by appointment of two Agricultural Instructors to the schools in the Kurunegala Korale, and the introduction of the improved ploughs. Cotton seed was distributed among the hena cultivators in in the Bintenna of Sabaragamuwa and efforts made to revive the cultivation of this product.

No data available to give this information.

No returns in the office for 1866.

* This represents the average yield per acre of the extent under cultivation.

† In returns for 1876 cocoanuts, arecanuts, and plantains are lumped together, and there is no head "Fruit Gardens."

‡ Decrease is only apparent, and is due to unreliable figures for 1876; in reality there is an increase.

RETURN OF PRISONS AND PRISONERS.

Replies to the Questions, compiled from the Returns of the Respective Superintendents.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male prisons at Węlikada and Slave Island and Breakwater Jails are on the separate system, with the exception of two temporary wards at Welikada, in which 144 prisoners are in association. Prisoners placed in a refractory cell for misconduct are in separation by day as well as by night.

Juvenile offenders are in Colombo and Kandy kept entirely apart from adults both by day and night.

At Slave Island there is a ward for men under medical observation prior to removal to hospital.

At Bogambra there are 324 cells, and at Mahara, Kandy (old jail), Galle, Jaffna, and Batticaloa there are from 40 to 100 cells at each prison, which are used for locking up the longer-sentenced or indifferently-conducted prisoners, the rest being kept in association wards.

At the other prisons of the Island there are fewer cells, as stated in answer to Query III.

In all prisons males are invariably separated from females, by day as well as by night.

At Węlikada and Galle known prostitutes are kept in a separate yard by day, and at night locked up in separate cells. At Kandy, also, prostitutes are kept apart from other females. All other female convicts are kept in association. Unconvicted prisoners are kept apart from convicted prisoners. Hulftsdorp and Kandy (old) prisons are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts being kept at these prisons to attend to jail services.

In other prisons the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of divisional yards to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours.

At Węlikada, Slave Island, Breakwater, Mahara, and Bogambra, no unconvicted prisoners are, as a rule, ever lodged.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

Jails.	Cells.	Wards.	Average cubic feet of space during 1889.

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are sub-divided as follows:—

a Penal stage, or rigorous hard labour.

b Second stage, or industrial hard labour.

c Third stage, or industrial light labour.

d Road Ordinance defaulters (except those committed under Ordinance 31 of 1884, who are treated like other hard-labour prisoners).

e Simple imprisonment only.

* There were temporary sheds erected in these jails.

(2) Females, convicted, in same class as males.

(3) Males, unconvicted, who are sub-divided as follows:—

a Debtors, Crown.
b Debtors, private.
c Persons committed in default of bail, witnesses, &c.
d Persons committed for further examination by Police Magistrates.
e Persons committed for trial by Superior Courts.
f Persons committed to await sentence and pending appeal.
g Accused persons arrested on warrants in transit to other stations.
h Suspected lunatics committed for medical observation.

[At Colombo, Kandy, Galle, Jaffna, and Batticaloa no lunatics are now committed to prison, proper and separate houses of observation having been provided, which are placed under the control of the Medical Department.]

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females) it is not possible in the present stage of the Island prisons to invariably keep these classes distinct from one another, except as stated in reply to Query I.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill only is in force in some of the prisons for convicted male prisoners, except offenders committed under provisions of local Ordinances for acts not in themselves otherwise criminal.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

All classes of convicted prisoners in the penal stage, and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, perform shot-drill for two hours in the forenoon, and two hours in the afternoon of every week-day.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the prison:—

a All jail services, including cooking for convicts.
b Coir-beating, stone-breaking, and coir-twisting.
c At Welikada, carpentering, mat- and brush-making are carried on. All the clothing for the prisons of the Island is made up at Slave Island prison, besides the uniform for the officers of the Convict Establishment. There is also a blacksmiths' and tinsmiths' shop at Welikada.
d At Kandy the convicts are employed in constructing the new Jail Hospital buildings, without any aid from free artizans or labourers; also, breaking stone into metal for sale to the Public Works Department.
e At Negombo, brush-, basket-, and broom-making.
f At Balapitiya, the convicts were also employed in repairs, improvements, and additions to the buildings in the respective jails.

Convict labour has been extensively employed outside the jails, as will be seen from reply to Query IX.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1) On what kind of work they are so employed?

At ***Welikada*** the convicts were employed in whitewashing and repairing Jail quarters, repairing roads, and at the Bankshall reclamation works.

At ***Slave Island*** and ***Breakwater***, in the Breakwater works, stacking metal, carting sand, and filling low grounds at the back of the Surveyor-General's Office.

At ***Mahara***, in mining and quarrying stone, and breaking into road metal for the Public Works and other Departments.

At ***Tangalla***, in building seawall and repairing and improving public roads.

At ***Puttalam***, in building a set of stores in the new Kachchéri premises, and opening roads round the Salt Stores.

At *Kandy*, in mining and quarrying stone and in repairs to public buildings.

At *Anurádhapura* and *Mihintalé* in restoring Dágobas.

At *Galle*, in carting water, opening and repairing roads, quarrying and breaking stone and repairing and constructing public buildings.

At *Negombo*, in water-carrying, and filling Kamachodai pond.

At *Hambantota*, in collecting salt and other works connected with the Salt Department, protecting the sand-hills by planting trees, fencing, &c., and building and repairing Salt Stores and public buildings.

At *Kurunégala*, in constructing and repairing roads within the town and breaking stone into road metal.

At *Jaffna*, in water-carrying, &c., repairing Government buildings, and quarrying and transporting stones.

At *Batticaloa*, in repairing roads and Government buildings.

Besides these special works, the prisoners at outstations are employed in cleaning and scavenging public latrines and premises, keeping the minor roads in order, as also the grounds about Government buildings, planting Government lands with ornamental trees, punkah-pulling, and sundry other small works.

(2) How are they supervised?

At Slave Island and Breakwater and at Mahara by the Assistant Superintendents, Jailors, Deputy Jailors, and the usual staff of party officers.

At Wẹlikaḍa the parties are visited by the Superintendent and Assistant Superintendent, as well as the Jailor and Deputy Jailors frequently during the day.

At the Wẹlikaḍa, Slave Island, Breakwater, and Mahara prisons there is the usual staff of overseers, sub-overseers, and guards, besides the superior officers named above.

Every prison has a Jailor, who visits outdoor working parties frequently.

At Kandy, Galle, Hambantoṭa, and Jaffna the convicts are supervised by overseers in addition to the ordinary guards.

At other prisons there are only guards or peons, varying according to the number of prisoners—as a rule, one officer to every ten convicts at work.

(3) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4) How are the profits of their labour accounted for?

An account of the labour contributed to each work is kept, from which the reply to Query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realised is paid into the nearest Kachchéri and brought to account as revenue. The amount recovered on account of metal is also credited to Government.

QUESTION XII.

QUESTION XIV.

Is there, or are there, any chaplain or chaplains of any, and what, religious persuasions?

There are no Prison Chaplains, but accredited ministers of all persuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Węlikaḍa, Slave Island, Breakwater, Borella Hospital, Hulftsdorp, Bogambra, and other principal jails frequent services are held both by Protestant and Roman Catholic ministers, on Sundays; and religious instruction is also given by catechists of various denominations regularly. At other prisons such services are held whenever any minister expresses a wish to do so. Religious services are also held by Buddhist priests in some of the jails.

QUESTION XVI.

Are Roman Catholic priests and Dissenting ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Wĕlikaḍa education is confined to the juveniles by paid teachers, for three hours a day on week-days, and three hours on Sundays.

At Slave Island and Breakwater teachers appointed by Government hold school from 11 to 1 o'clock every Sunday.

At Negombo teachers appointed by Government hold school from 12 to 2 P.M. on week-days, and on Sundays from 6 A.M. to 10 A.M.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good behaviour in matters of discipline. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by prisoners. Ordinarily, the number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of three months passed in the penal stage. When suitable work is available, all well-conducted, long-sentenced prisoners, who have been over two years in jail, are eligible to earn one additional mark a week on becoming efficient artizans. After they have earned a further instalment of 1,040 marks such workmen are eligible to earn two marks per week extra, and upon earning another instalment of 1,144 marks they become further eligible to earn three marks extra a week; but the number of these is very limited. A prisoner sentenced to one years' imprisonment or under is not eligible for any remission of his or her sentence.

QUESTION XIX.

Have coroners' inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Every death is reported to the Police Magistrate or Deputy Coroner, and inquires under chapter XVII. of the Criminal Procedure Code are held on every occasion. The number of deaths and inquests held have been as follows:—

Jails.	No. of Deaths.*	Jails.	No. of Deaths.*	Jails.	No. of Deaths.*	Jails.	No. of Deaths.*

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1889?——Satisfactory.

(2) What were the prevailing diseases?——Dysentery, fever, bowel complaints, sore eyes, and diarrhœa.

QUESTION XXI.

What are, shortly, the rules as to diet?

The following is the dietary scale now in force in all prisons:—

	European and Burgher.			Native.			Punishment Diet.		Light Labour Diet.		
Articles.	Full. oz.	Ordinary. oz.	Penal. oz.	Full. oz.	Ordinary. oz.	Penal. oz.	European & Burgher. oz.	Native. oz.	European & Burgher. oz.	Native Adults. oz.	Native Juveniles. oz.

Rice	16	10	8	20	20	22	0	22	8	12	10
Meat or Fish	8	8	0	5	2½	0	0	0	4	4	2
Vegetables	8	8	4	4	4	4	0	0	6	4	4
Plantain	4	4	0	2	0	0	0	0	0	0	0

Coffee	½	½	0	½	½	0	0	0	½	¼	¼
Ghee	½	½	0	½	½	0	0	0	0	0	0
Onions	½	½	0	¼	¼	0	0	0	0	0	0
Salt and Pepper	¾	¾	¾	¾	¾	¾	0	¾	0	0	0

Curry stuffs.—A sufficient quantity.

The quantities specified are a day's consumption for an adult, and are served out at three meals: one at 5.30 A.M., consisting of bread, coffee, &c.; one at 11 A.M., consisting of one-half of the remaining articles; and the remainder at 5.30 P.M. In the case of juvenile offenders under sixteen years of age a deduction is made of one ounce of bread, six ounces of rice, and one-fifth of the ration of meat.

Full Diet is only given to convicted prisoners who have been actually two years in Jail.

Penal Diet is given to convicted prisoners with sentences of two months and under, during the whole of their term; to other convicted prisoners during the first two months of their sentence.

Ordinary Diet is given to all unconvicted prisoners, and to all convicted not entitled to full, or liable to penal diet.

Punishment Diet is only given when specially ordered as a punishment for breach of prison rules and regulations.

As an exceptional measure, and in view of the more severe labour exacted in Mahara quarry, exceptions are made to the above rules from time to time.

At Wĕlikaḍa military prisoners have a special diet, and European and Burgher prisoners receive ordinary diet.

ANSWERS.

Leper Asylum, Hendala.—An ample supply. The Kelani river, in the vicinity of the hospital, and the wells in the hospital grounds. The quality of the water derived from these sources is comparatively pure and good; the drinking water obtained from the wells is, after filtration, free from organic taint; the river water serves the purposes of ablution. There are seven bathrooms in connection with the hospital, supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use in well-constructed latrines, in which metal pails are placed as receptacles for the excreta, and a quantity of dry and sifted earth reserved for the purpose of deodorisation. The latrines admit of the utmost cleanliness and free ventilation, and are constantly whitewashed and disinfected. The sewage is removed twice a day, and incinerated in deep pits at a distance from the hospital.

General Hospital, Colombo.—Unlimited. Four wells. The water is conducted through iron pipes from these wells to two filters, Danchell's and Captain Crease's, erected at a convenient distance from the wards. A patent force-pump is fixed to the principal well. Chatty filters on tripod stands are also used in some wards. In addition to this, a free supply of Labugama water is distributed all over the hospital. Clear, soft, colourless, and free from organic impurities. Arrangements as to baths and lavatories consist of cemented baths built in eight lavatories, to which water is conducted through iron tubes leading from the different pipes. There are also appliances for warm baths. The dry-earth system: close-stool buckets are placed for helpless patients, chiefly in the diarrhœa wards. Portable urinals for night use are constructed in the outer verandahs of each ward. The excreta which have collected in galvanised iron buckets in the latrines are disinfected with dry-earth and MacDougall's disinfecting powder, and are removed every night by the latrine coolies, and buried at a considerable distance from the hospital. Porcelain chamber pots are used in lieu of the wooden close-stool buckets.

The baths are cemented, and have communicating pipes with an elevated cistern near the well. Most of the patients are allowed to bathe in the river under the supervision of an attendant; others have their baths within the hospital. The latrines are all built on the dry-earth system, and are provided with zinc buckets, the cleanliness of which is attended to by the latrine cooly.
